

Ray Thornton

Ray comes to One11 with over 31 years of technology experience with the most recent 16 years being focused on delivering industry-leading technologies for real estate companies. He is widely regarded within the industry as an innovative thought leader with unique capabilities at bridging the “technology gap” across multiple business segments.

Ray brings deep experience in the Multifamily market with successful service engagements at large REITS and Owner\Operators. While in service to these companies, Ray was instrumental in successfully planning and executing three separate ERP solution migrations. Ray brings significant experience in requirements gathering, innovation, project management, and overall technology strategic planning.

Prior to joining One11, Ray served at Bell Partners as the Senior Vice President of Information Technology where he and his team was responsible for executing the overall technology strategy across +60K units while serving multiple third-party clients and internal fund instruments. While at Bell, he was instrumental in Bell’s migration onto the Yardi front-office platform and has since partnered with the key business units within Bell to ensure the Yardi platform is fully leveraged to achieve the company’s business goals.

Ray received his M.B.A. with a technology emphasis from Samford University as well as his B.S in Management Information Systems from the University of Alabama.
