

LEONARD KIEFER, PHD

FREDDIE MAC DEPUTY CHIEF ECONOMIST

Leonard (Len) Kiefer is an economist who helps people understand what's going on in the economy, housing, mortgage markets. Len joined Freddie Mac in 2009, and has served as Deputy Chief Economist since December 2012. Len is responsible for primary and secondary mortgage market analysis and research, macroeconomic analysis and forecasting.

Prior to joining Freddie Mac, Len was an assistant professor at Texas Tech University in Lubbock, Texas where he conducted research on macroeconomics and monetary policy. He has also taught economics at The Ohio State University and finance at George Mason University.

Kiefer holds a B.A. in economics from the University of Kentucky, and a PhD from The Ohio State University. Len is a member of the American Real Estate and Urban Economics Association (AREUEA) and the National Association for Business Economics (NABE).

Freddie Mac was established by Congress in 1970 to provide liquidity, stability and affordability to the nation's residential mortgage markets. Freddie Mac supports communities across the nation by providing mortgage capital to lenders. Today Freddie Mac is making home possible for one in four homebuyers and is one of the largest sources of financing for multifamily housing. www.FreddieMac.com.
