TUESDAY, SEPTEMBER 12

9:00 AM – 3:15 PM  Registration
Location: Imperial Wall (Ballroom Level)

10:00 AM – 12:15 PM  General Session
Location: Grand Ballroom (Ballroom Level)

Welcome and Opening Remarks

Keynote: The Hidden Brain
The “hidden brain” influences how we conduct business and live our lives. There is robust evidence that diversity improves the way organizations address problems. It is also the case that, when not handled well, initiatives aimed at expanding diversity can sometimes be ineffective or even counter-productive. Shankar Vedantam takes a science-based approach to understanding unconscious bias and how organizations can capitalize on diversity for more successful outcomes.

Speaker:
Shankar Vedantam
Social Science Correspondent, NPR and Host, "The Hidden Brain" Podcast
