HUD Issues Formal Request for Public Comment on 2013 Disparate Impact Rule

HUD formally announced this week that it will seek public comment on whether the 2013 Disparate Impact Rule conflicts with the 2015 Supreme Court ruling in Texas Department of Housing and Community Affairs v. Inclusive Communities Project. As previously reported, NMHC/NAA have long-argued that numerous HUD regulations and guidance documents reinforce an interpretation of disparate impact that conflicts with recent legal precedent and creates uncertainty in housing providers use of long-held, business practices. SOURCES OF APARTMENT DATA
NMHC/NAA and the Census Project Weigh in on Census Bureau Funding
NMHC/NAA joined The Census Project in sending a letter to the Senate Appropriations Committee on June 4 regarding the mark up of the Fiscal Year (FY) 2019 Commerce, Justice, Science (CJS) appropriations bill. The information the Census provides is paramount to the success of the multifamily industry. Census data is used for numerous purposes throughout the industry, including estimating the economic impact of the multifamily sector and providing the most current and relevant data.

MUSIC LICENSING
Multifamily Industry and Congress Urge DOJ Not to Upend Music Licensing Market
As reported previously, officials at the Department of Justice (DOJ) are undertaking a review of consent decrees to determine their continued relevance. One consent decree that impacts apartment owners and operators governs the American Society of Composers, Authors and Publishers (ASCAP) and Broadcast Music, Inc. (BMI). Last week, in a letter to DOJ, NMHC/NAA urged DOJ to retain the consent decrees in their current form since they help ensure that a competitive and predictable music licensing marketplace exists for end-users, like apartment communities.

IMMIGRATION
Congress Focuses on Immigration
President Trump’s recent announcement that his administration would halt the policy of separating migrant children from their parents at the border dominated headlines this week. However, immigration has been a topic of much debate throughout this administration and has been top-of-mind for NMHC/NAA for even longer. As the broader immigration debate continues, NMHC/NAA will continue to focus on the issues important to us, including the expansion and improvement of the H2-B program to address labor shortages and support for the EB-5 Immigrant Investor and E-Verify Programs.

**Hurricane Season Is Here Again**

The 2018 Hurricane season is already underway and the National Oceanic and Atmospheric Administration (NOAA) is forecasting a potential of 10 to 16 named storms in the Atlantic.
